Bill Fletcher Presents:

**“Right-Wing Populism in the USA:
How to Understand It, How to Fight It”**

Right-wing populism is not new to the USA. It is a dangerous, irrationalist, racist, sexist and xenophobic movement that represents a threat to democracy and justice. But, where does it come from? Why does it seem to arise in times of crisis? What is its connection with the 45th President? Is it a breeding ground for fascist movements?
